

RedFinn 6M

The Redfinn 6M, (designed by John Moxham) is a fisherman friendly, day angler for long distance fishing trips and is highly fuel efficient. From a safety perspective it is unsinkable, self-bailing and can be towed easily yet still sea worthy. The inside of the boat is open planned for maximum space for fishing with a walkabout flat floor.

The Redfinn 6M is fitted with Finn-Riders that give the boat increased stability, buoyancy and fuel efficiency. With 1.5 - 2 tons of P.U. rigid foam buoyancy to give that extra feeling of safety, this is an impressive small fishing boat.

LENGTH MAX:	6.0m
CENTRELINE:	5.49m
BEAM:	2.20m
CUDDY HEIGHT:	5'
DRAFT:	12"
DRAFT DOWN:	24"
WEIGHT:	500kg approx.
DEADRISE:	17" (Apex)
MAX HP:	Yamaha 4 Stroke 100hp FTD
FUEL EXTERNAL:	50 litres
CE RATED: CAT C	6
